PRE-ANESTHETIC BLOOD SCREENING	CATHETER AND FLUIDS
<p><i>Like you, our greatest concern is the well being of your pet. Though the safety of anesthesia has increased substantially with modern anesthetic drugs & equipment, anesthesia is never entirely without risk. Many conditions, including disorders of the liver, kidneys, or blood are not detected unless blood testing is performed. Since these are the major organs that are most affected by anesthesia, such tests are especially important before any kind of surgery. We recommend performing a pre-surgical laboratory work up on your pet with understanding that occasionally an undetectable problem may affect the outcome of anesthesia and surgery. PLEASE CONSIDER AND INDICATE YOUR CHOICE:</i></p> <p>_____ BASIC liver and kidney screen (<i>recommended for healthy patients under 2yrs of age and required for patients 2-7yrs of age</i>) COST: \$51.00</p> <p>_____ COMPLETE chemistry screen (<i>recommended for any patient but required for those over 7yrs of age</i>) COST: \$69.00</p> <p>_____ DECLINE any bloodwork & accept the risk of anesthetic complications or side effects in my pet. (<i>Optional only for those under 2yrs of age.</i>)</p>	<p><i>Prior to anesthesia, an IV catheter may be placed in your pet's leg to serve as an access port in the event life-saving drugs or fluids are needed during anesthesia. In addition, your pet also has the option of receiving IV fluids during and after surgery to help maintain blood pressure and to quicken recovery. The costs for these procedures are:</i></p> <p style="text-align: center;"><i>\$44.00 for IV Catheter or \$84.00 for IV catheter and IV fluid admin.</i></p> <p style="text-align: center;">PLEASE CHOOSE FROM ONE OF THE FOLLOWING OPTIONS:</p> <p><input type="checkbox"/> YES - I want my pet to receive an IV catheter</p> <p><input type="checkbox"/> YES - I want my pet to receive an IV catheter & IV fluids</p> <p><input type="checkbox"/> NO - I decline IV catheterization and IV fluids</p> <p style="text-align: center;"><i>(NOTE: Aged, infirm, or critically-ill patients undergoing surgery are required to have an IV catheter and fluids at doctor discretion)</i></p> <p>If you would like your pet to have a dental cleaning while under anesthesia, please initial here _____.</p>

AUTHORIZATION TO PROCEED

I authorize the use of the appropriate anesthetics/medications and support personnel judged necessary by the veterinarian. I understand that even with every conceivable precaution taken, any time an animal is anesthetized there is a slight risk that an adverse reaction may occur, potentially resulting in death. I understand that during the above listed procedure(s) an unforeseen medical condition may become evident that necessitates an extension of or an addition to these procedures. I authorize the performance of such procedure(s)/surgeries as perceived necessary in the professional judgment of the veterinarian. I understand that the results of any procedure/operation cannot be guaranteed.

I am aware of the risk and understand the information presented in this consent form, and I give authorization to proceed with procedure/surgery and perform any and all life-saving procedures should the need arise.
