

SURGICAL AND ANESTHESIA CONSENT FORM

OWNER'S NAME: _____ PET'S NAME: _____

SPECIES: _____

I, _____, am the owner or agent for the owner of the above described patient and I authorize to execute this consent. I authorize these procedures to be performed:

THERE IS AN ADDITIONAL CHARGE FOR PETS THAT ARE IN HEAT, PREGNANT, OBESE OR CRYPTORCHID AT THE STERILIZATION SURGICAL PROCEDURES.

PRE-ANESTHETIC BLOOD SCREENING	CATHETER AND FLUIDS
<p><i>Like you, our greatest concern is the well being of your pet. Though the safety of anesthesia has increased substantially with modern anesthetic drugs & equipment, anesthesia is never entirely without risk. Many conditions including disorders of the liver, kidneys, or blood are not detected unless blood testing is performed. Since these are the major organs that are most affected by anesthesia, such tests are especially important before any kind of surgery. We recommend performing a pre-surgical laboratory workup on your pet with understanding that occasionally an undetectable problem may affect the outcome of anesthesia and surgery. PLEASE CONSIDER AND INDICATE YOUR CHOICE:</i></p> <p>_____ BASIC liver and kidney screen (recommended for healthy patients under 2yrs of age and required for patients 2-7yrs of age) COST: \$51.00</p> <p>_____ COMPLETE chemistry screen (recommended for any patient but required for those over 7yrs of age) COST: \$69.00</p> <p>_____ DECLINE any bloodwork & accept the risk of anesthetic complications or side effects in my pet. (Optional only for those under 2yrs of age.)</p>	<p>Prior to anesthesia, an IV catheter may be placed in your pet as an access port in the event life-saving drugs or fluids are needed during and after surgery to help maintain blood pressure recovery. The costs for these procedures are \$44.00 for IV Catheter or \$84.00 for IV catheter and IV fluids.</p> <p style="text-align: center;">PLEASE CHOOSE FROM ONE OF THE FOLLOWING OPTIONS:</p> <p><input type="checkbox"/> YES - I want my pet to receive an IV catheter & fluids</p> <p><input type="checkbox"/> YES- I want my pet to receive an IV catheter</p> <p><input type="checkbox"/> NO - I decline IV catheterization and IV fluids</p> <p>(NOTE: Aged, infirm, or critically-ill patients undergo IV catheterization required to have an IV catheter and fluids at doctor's office)</p> <p>If you would like your pet to have a dental cleaning under anesthesia, please initial here _____</p>

- Injectable pain medication is **REQUIRED** for all surgical procedures at a cost determined by your pet's weight.
(This injection will last for 24 hours)

If you would like additional oral pain medication to give at home, please initial here _____.

ALL DECLAWS RECEIVE MANDATORY ORAL PAIN MEDICATION

ALL OWNERS	DOG OWNERS
<p>When did your pet last eat? _____</p> <p>What medications have you given your pet in the last 24 hours (Note time given also)? _____</p>	<p>We strongly recommend that all dogs be current on a heartworm prevention prior to anesthesia. Should your dog have heartworm complications or even death could result from your dog receiving anesthesia/surgical procedures. The cost of this test is \$44. I would like to have my dog heartworm tested. <input type="checkbox"/> YES <input type="checkbox"/> NO</p> <p>I would like to purchase heartworm prevention at this time. <input type="checkbox"/> YES <input type="checkbox"/> NO</p>
CAT OWNERS	<p>Please circle one: 6 mo supply 12 mo supply</p> <p style="padding-left: 100px;">Iverhart Revolution Sentinel</p>
<p><i>We strongly recommend that all cats be FELV/FIV negative prior to anesthesia. Should your cat have Feline Leukemia or the FIV virus, complications or even death could result from your cat receiving anesthesia/surgical procedures. The cost of this test is \$44. I would like to have my cat Feline Leukemia & FIV tested. <input type="checkbox"/> YES <input type="checkbox"/> NO</i></p>	

IF YOU HAVE ANY QUESTIONS PLEASE FEEL FREE TO ASK ANY OF OUR STAFF OR REQUEST TO DISCUSS THESE WITH THE DOCTOR.

AUTHORIZATION TO PROCEED

I authorize the use of the appropriate anesthetics/medications and support personnel judged necessary by the veterinarian. I understand that even with every conceivable precaution taken, any time an animal is anesthetized there is a slight risk that an adverse reaction may occur, potentially resulting in death. I understand that during the above listed procedure(s) an unexpected medical condition may become evident that necessitates an extension of or an addition to these procedures. I authorize the performance of such procedure(s)/surgeries as perceived necessary in the professional judgment of the veterinarian. I understand that the results of any procedure/operation cannot be guaranteed.

I am aware of the risk and understand the information presented in this consent form, and I give authorization to proceed with procedure/surgery and perform any and all life-saving procedures should the need arise.
